

# TORQSTOP™

TorqStop™ offers premium brake products, manufactured in ISO 9001:2015 and IATF16949 certified factories. All of our products conform to FMVSS121 and ECE R90 requirements. Our broad coverage, outstanding value and user-friendly lookup tools make TorqStop™ an easy choice for your HD brake parts needs. All products are **100% NEW and CORE-FREE** – saving you time and money.

## TORQSTOP™ AIR DISC BRAKE PADS

- OE-quality friction material for maximum stopping power and wear
- Available in 23K and 29K GAWR ratings
- Premium hardware included
- AkzoNobel anti-corrosion powder coating
- Welded mesh backing plates for superior sheer strength
- Burnishing strips for reliable performance from the very first stop
- Outperforms much more expensive pads

## TORQSTOP™ AIR DISC ROTORS

- OEM-quality high grade metallurgy
- Precision machined for parallelism, DTV and surface finish
- Mill balanced to reduce vibration
- Zinc-aluminum anti-corrosion finish to improve heat dissipation and extend life.

## TORQSTOP™ AIR DISC CALIPERS

- **100% brand new** castings & internal components
- Manufactured in an IATF16949-2016 certified factory
- Exceeds FMVSS121 performance standards
- Corrosion-resistant nickel-plated guide pins
- High temperature silicone boots and seals
- High-temperature anti-seizing grease for long-lasting smooth operation

## TORQSTOP™ AIR DISC CHAMBERS

- Manufactured to OE fit, form and function
- Heavy gauge steel housings
- Premium rubber diaphragms
- High-temperature seals
- Long-life corrosion-resistant coatings
- Meets or exceeds SAE standards

## TORQSTOP™ BRAKE SHOE KITS

- **100% new**, No more sorting messy cores!
- E-coating corrosion protection extends life and prevents rust-jacking
- 23K NAO / GF long-life friction
- High-grade steel and heat-treated roller and anchor journals
- Manufactured in an IATF16949-2016 certified factory
- Convenient stop-box contains 2 shoes and HD hardware

TorqStop™ was created with the end user in mind. Our philosophy is simple: Exceed our customer's expectations in quality, delivery, price and customer service. We offer best-in-class cataloging, website, PIES data and accurate part images in order to ensure our customers get the right part, on time, at the right price. No other supplier offers a better quality vs. price solution that will not only out-perform other products, but will reduce cost-per-mile and downtime.

*Don't forget to ask about our fleet test program!*
